

Homemade Smartphone

What you need:

- CD Case
- Graph or plain paper
- Pen
- Tape
- Scissors
- Cutter
- Smartphone

What to do:

1. Draw the diagram provided above, on the piece of paper
2. Cut out the diagram, you will end up with a trapezoid
3. Use the template to cut out four pieces from the clear part of the CD Case
4. Now arrange the pieces so all the long ends are next to each other
5. Select a holographic video (links are in the pictures below or you can search online), set the pyramid on top of your phone, dim the lights, and enjoy!
